Infor® CloudSuite™ Public Sector can be purchased as an entire suite or as smaller bundles, components of which may include:

**Infor Enterprise Financial Management (EFM)**—Infor EFM provides a complete set of core financial management capabilities, including general ledger, accounts payable, accounts receivable, project accounting, and fixed assets. The solution also supports AP automation, cash and treasury management, close and reconciliation management, and financial management/project analysis, while also providing mobile capabilities.

**Infor Supply Chain Management (SCM)**—Infor SCM provides a complete set of procurement and supply management capabilities to support the processing of requisitions and purchase orders, as well as the management of supplier relationships. It includes support for self-service requisitions, punchout, RFP and contract management, spend analysis, business intelligence, mobile capabilities, and web-based workflows.

**Infor Global HR and Payroll**—Infor Global HR and Payroll is a next-generation HR platform that supports holistic hire to retire functions. Designed to increase the efficiency of HR processes and optimize investments in human capital, the solution helps keep critical talent engaged, while supporting the agency’s strategic goals. Capabilities include benefits and payroll management; compensation, goal, performance, and succession management; development planning; and a competency framework.

**Infor Planning and Budgeting**—Infor Planning and Budgeting delivers an integrated suite of financial performance management applications, packaged analytics, and compliance tools that operate across the complex web of your enterprise systems to deliver a real-time, single version of the truth, including budgeting and planning, strategy management, and financial consolidations.

**Infor ION®**—Infor’s Intelligent Open Network (ION) provides a powerful and scalable framework that helps you eliminate operational silos, dramatically improve exception management, and achieve end-to-end efficiency. You get the complete infrastructure needed for integrating both Infor and third-party applications, along with a publish and subscribe methodology that uses business object documents (BODs) for open communication. Infor ION also provides the tools necessary to create alerts and workflows that allow users to manage on an exception-only basis.
Infor Ming.le™—Infor Ming.le is a comprehensive platform for social collaboration, business process improvement, and contextual analytics. Fully embedded within your service delivery system, it allows you to communicate alerts, share information across departments, and publish discussions in an informal and unstructured fashion across your organization.

Infor BI (Business Intelligence)—Infor BI provides the right information, to the right individuals, at the right time to enable better, faster decision making. You get financial and operational reporting and analysis, dashboards, planning, budgeting, forecasting, role-based analytics, data mining, and financial consolidation capabilities. Infor BI integrates with applications and data sources of all kinds, and can be used in conjunction with other Infor ION applications, or as a stand-alone solution.

Infor Reporting—Infor Reporting provides user-friendly reporting tools and pre-built reports that are ready to use right out of the box to put the power of analytics directly into the hands of power users—without help from IT.

Add-on components

Additional solutions that enhance and extend Infor CloudSuite are available as add-ons, for an additional subscription fee. For Infor CloudSuite Public Sector, these solutions include:

- **Talent Management**—Manage your public sector workforce from hire to retire.
- **Planning and Budgeting**—Create a connected budgeting process across your organization.
- **Enterprise Asset Management**—Oversee the maintenance and utilization of all assets for cost savings and increased efficiency.
- **Student Activity Tracking**—Supervise and provide a comprehensive view of all student activity across your campus or school district.
